**terrATEC**  **International Trade Fair for Environmental Technologies and Services** is the only comprehensive environmental trade fair in Germany in 2015 dedicated to environmental technologies and services. The focus is on sustainable water, raw materials and recycling management solutions as well as on relevant aspects relating to adaptation to climate change. [www.terratec-leipzig.de](http://www.terratec-leipzig.de)

**enertec**  **International Trade Fair for Energy Generation, Distribution and Storage** – Gives an overview of the latest technologies and innovative services for an efficient and sustainable energy infrastructure. One focus in 2015 with a view to resource and energy efficiency is the topic of decentralized energy – also in combination with modern centralized solutions. [www.enertec-leipzig.de](http://www.enertec-leipzig.de)

## Germany's largest partnership forum for environmental and energy technologies

"Green Ventures" offers a program of carefully planned, bi-lateral meetings for companies as well as institutions coming from approx. 35 nations. The forum has been taking place annually in Germany since 1998, in China in 2002 and 2004, as well as in Italy in 2008, in Brazil in 2011, in the Gulf States in 2012 and in 2014 in the United Kingdom.

The forum is directed at firms and institutions active in the following areas:

- 1. Green Ventures – Water, Air & Soil**  
 Water and sewage treatment, distribution & planning, circulation processes, air and ground clean up, ordinance clearance, remediation and recultivation.
- 2. Green Ventures – Energy & Construction**  
 Energy planning, generation, distribution, saving and regenerative energies, heating, waste heat, co-generation, insulation, environmentally friendly & innovative construction, architecture, project planning, building methods & equipment, facility management, infrastructure (water & energy supply etc.), modernization, restoration, demolition/ recycling.
- 3. Green Ventures – Recycling & Regenerative Materials**  
 Waste collection, transport & recycling, composting (new) materials made of renewable resources or waste and their industrial applications, bio-degradables.

Countries: Israel, Spain, Turkey, Denmark, Finland, China, Italy, Poland, Tunisia, Belgium, Czech Republic, Hungary, CIS, Great Britain, Germany and other countries
